CO-CURRICULAR OPPORTUNITIES

Opportunities now ... benefits for life
A school of the Anglican Schools Commission (Inc.)

Realising your unique potential

Discover your best self outside of the class room.

The co-curricular program at GMAS greatly enhances each student's school experience, and is quite often a highlight of each child's schooling years.

The broad range of sporting, academic and recreational pursuits on offer at GMAS are designed to instil a strong sense of belonging, wellbeing, and camaraderie amongst our students, while helping each child to develop their leadership, confidence, resilience and social skills.

This year, we have over 50 different co-curricular activities on offer. These activities have been thoughtfully selected to allow our students to pursue their interests and passions in a positive and nurturing environment that encourages participation over competition.

Students from Pre-primary to Year 12 are able to participate in the co-curricular program, with activities being held before and after school and on weekends. Activities are supervised by our staff and volunteers

from our school community. Some activities are also supported by community organisations such as regional sporting clubs and associations.

As part of our commitment to the physical and emotional wellbeing of every child, the majority of activities come at no additional cost to families. Some activities do incur a small charge such as club registration fees and these are listed where known, throughout this handbook.

While participation is optional, we do hold an expectation that students honour their initial commitment to their chosen activities for the duration of the season or term. This includes regular attendance at rehearsals, training, meetings and games.

Our hope is for each and every student at GMAS to discover and explore their unique talents and interests while enjoying a healthy balance between academic, physical and social pursuits.

Should you have any questions regarding the co-curricular program at GMAS, please contact [Mrs Val Best](#), Co-curricular Coordinator.
